

The Aslan 85D High Bake Paint Mask Stencil is a self-adhesive film that is ideal for customizing designs on car parts, firearms, tumblers, and many other applications which require heat curing cycles. Works on smooth, flat, and curved surfaces.

CONSTRUCTION

Film Type	PVC, Monomeric Film
Thickness	3.1 mil
Adhesive	Clear Pressure Sensitive Polyacrylate
Release Liner	Silicon Coated Paper

CHARACTERISTICS

Dimensional Stability	Tested applied to aluminum. Stored of 70°F. for 2 hours	No longitudinal or lateral shrinkage measured
Combustibility	Self-Extinguishing	
Temperature	Min. Application: 59°F	Max. Service: 212°F

APPLICATION INSTRUCTIONS:

- Intended for dry application only.
- This film was developed for multiple baking cycles at 200°F.
- Allow for cooling between heating cycles.
- Remove promptly after painting and curing cycles.

STORING INFORMATION:

The Aslan 85D High Bake Paint Mask has a 2-year shelf life from the production date. For best results, the material must be stored at temperatures between 59°F and 77°F. It is recommended to store in a location with a relative air humidity of 50-60%. To avoid surface area issues from appearing on the roll surface it is recommended to store the material in a vertical standing position or on an appropriate rack system.
