

FEATHER LIGHT

Featherlight Heat Transfer Vinyl

Usage:

New Feather Light Transfer Vinyl is a new ultrathin heat press vinyl for use on cotton, uncoated polyester, poly/cotton blends and Lycra® / Spandex.

At just 1.6 mil thickness, Feather Light is so light and thin it feels amazing even on delicate materials.

Cut:

- Use your 45° or 60° cutting blade for best results.
- Cut in “Mirror” or “reverse.”

Press & Peel

- Preheat garment for 2-3 seconds
- Temp: 310° F/155° C
- Pressure: Medium-Firm
- Time: 15 seconds
- Important!! Cold peel only!

Washing Instructions:

- Wait 24 hours before first wash
- Machine wash cold with mild detergent
- Dry at normal setting
- Do not dry clean
- Do not bleach
