

Have USCutter.com ship directly to me.

USCutter.com is proud to announce that we have partnered with DHL and can now offer shipping outside of the United States with no minimum order!

To ensure that this new program starts off correctly we have a few policies in place to make sure that we provide you with the best service possible

- A. All international orders must be created and processed with a sales rep at International@USCutter.com
 - B. USCutter.com may not be able to ship everything on our website outside of the United States. Some vendors may already have distributors in your area so we may not be able to.
Some example brands that we can't ship outside of the U.S. - Wide Format HP printers, Graphtec, Roland, Mimaki, UniNet, Sawgrass, any dropship items, custom by the foot/yard material, liquids, and a few other items.
 - C. The only option for payment is to pay with a Wire Transfer unless specified otherwise by the sales agent.
 - D. Customer will pay all shipping, customs duties, insurance, and any other applicable fees before shipment if not covered by DHL.
 - E. All items are still covered by the USCutter.com warranty, but the customer will pay all shipping costs to and from.
- (USCutter.com reserves the right to refuse shipping to any location for any reason)
