

INK COMPATIBILITY

Introducing the 3275 TexBanner™ – a light-weight, 100% synthetic non-woven banner for short-term indoor and outdoor use. This ultra-white, flexible fleece banner offers high tensile strength and tear resistance, making it ideal for trade fairs, exhibitions, sporting events, and low-cost signage.

As a cost-effective alternative to Tyvek®, it features a natural textile look with vibrant prints. The water-fast inkjet coating and excellent opacity ensure your messages are bold and clear.
