

INK COMPATIBILITY

3357 Pacifica II, an even whiter version of its predecessor, is a super smooth, high performance, matte photo paper designed for premium quality on solvent printers. Pacifica II features a barrier coating that seals the base paper, prevents show through and cockle, and maximizes print density, color gamut, and shadow detail at the surface.

STANDARD SIZES

- Item # 33570000183C - 30"x150' - 3"core
