

## Product Design

TransferRite Ultra Clear boasts a unique rubber-based adhesive system that provides superior adhesion to liner. The 4 mil polypropylene films offers improved clarity, dimensional stability and an adhesive system that will not haze vinyl.

## Application

TransferRite Ultra works well with pre-spaced lettering 2"-12" high, as well as one-piece decals. It also adheres well to mid-size line striping.

## Performance Features

- ☑ Effective part pick-up on small graphics due to High Tack
- ☑ Consistently accurate registration gives a heightened clarity
- ☑ Ultra adhesive with superior adhesion to liner with no tunneling and no haze
- ☑ Polypropylene film provides dimensional stability & snap to tear
- ☑ Affordable price offers more bang for your buck

Physical Properties	Values
Color	Clear
Nominal Thickness	3.9 mils (.10 mm)
Peel Adhesion @90°	13 oz/in (3.6 N/25mm)
Tensile Strength	15 lb/in (66 N/25mm)
Elongation	665%

All product properties are measured in accordance with Pressure Sensitive Tape Council and/or ASTM test methods. The physical properties listed above are typical values and are not to be constructed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for his intended use. American Bilrite assumes no liability for claims beyond the replacement value of our product proved to be defective.
